
MONDAY, AUGUST 30, 2010

The Board of County Commissioners met in continued session at 8:00 o'clock A.M. Chairman Brenneman, Commissioners Lauman and Dupont, and Clerk Robinson were present.

NO MEETINGS SCHEDULED

At 5:00 o'clock P.M., the Board continued the session until 8:00 o'clock A.M. on August 31, 2010.

TUESDAY, AUGUST 31, 2010

The Board of County Commissioners met in continued session at 8:00 o'clock A.M. Chairman Brenneman, Commissioners Lauman and Dupont, and Clerk Robinson were present.

Chairman Brenneman opened public comment on matters within the Commissions' Jurisdiction, no one present to speak, Chairman Brenneman closed the public comment period.

PUBLIC HEARING: ROAD ABANDONMENT #483 (PORTION OF STREET IN HUNGRY HORSE KNOWN AS GAMMA ROAD)

[9:30:23 AM](#)

Members present:

Chairman Joseph D. Brenneman
Commissioner Dale W. Lauman
Commissioner James R. Dupont

Others present:

Assistant Mike Pence, Deputy County Attorney Peter Steele, Deputy County Attorney Paul Nicol, Public Works Director Dave Prunty, Tom Esch, Tom Sands, Erica Wirtala, Bill Daggett, Susan Drynan, Craig Drynan, James W. Grant, Evelyn Grant, Loretta S. Byrd, Darlene Wagner, Ralph Fitzpatrick, Thomas L. Beck, Richard G. Tobin, Brian Sullivan, Vicki Byrd-Rinke, Craig Schaeffer, Clerk Kile

Chairman Brenneman summarized the procedures involved in abandoning a road.

Peter Steele explained the abandonment is a discontinuance of a street in an unincorporated city and is similar to a road abandonment, but falls under MCA statue 7-14-2616. He stated two of the landowners that live on the street have signed a petition to abandon about 150 feet of Gamma Road which ends at the river. Steele noted the applicant is not asking to have the pedestrian footpath abandoned.

Chairman Brenneman stated Commissioner Dupont and Flathead County Examining Land Surveyor Jim Burton viewed the road and a Viewer's Report was prepared that says:

We found upon viewing said roadway: That this portion is over grown and not drivable.

We recommend approval of the abandonment with the conditions stating that easements be retained for the existing pedestrian footpath to the river and any existing utilities that may be in place.

Chairman Brenneman opened the public hearing to anyone wishing to speak in regards to Road Abandonment #483.

Tom Esch, Attorney representing Craig and Susan Drynan who along with James and Evelyn Grant petitioned the Commission to abandon the last 200 feet of Gamma Road. He stated the petition meets the legal requirements of MCA 7-14-2616.

7-14-2616. Procedure to discontinue street.

(1) The county commissioners may discontinue a street or alley or any part of a street or alley in an unincorporated town or town site upon the petition in writing of all owners of lots on the street or alley if it can be done without detriment to the public interest.

TUESDAY, AUGUST 31, 2010
(Continued)

Tom Esch stated the Commission has received a report from the Board of Viewers made up of the Commissioner living in the district in which the abandonment is located and the Examining Land Surveyor for Flathead County, who found this portion of the roadway is overgrown and not drivable and recommended approval of the abandonment with the condition that an easement be retained for the existing pedestrian footpath to the river and any existing utilities that may be in place. Esch said the applicants agree with those conditions. He noted the applicants felt compelled to ask for the abandonment when they learned the developer desired to erect a private bridge across the river immediately adjacent to their property with the stretch of the river involved being one of the most aesthetic canyons in the river; high cliffs, deep clear water, lots of wildlife and used by many for recreation. These attributes he stated are why Flathead River was designated a wild and scenic river and why those attributes are to be protected as directed by our county growth plan. These attributes are the same ones being used by the developer trying to sell the property. He noted the existing road right-of-way was not intended to provide access across the river and at one time continued beyond its current location and switched back down to the river bank where a huge dredge scooped gravel out of the river and dumped it into trucks to be taken to the Hungry Horse Dam construction site; with the historic bucket still in Craig and Susan's yard. Esch cited another reason Gamma Road was not intended to cross the river is because Alpha Road immediately to the west also ends at the river bay. He pointed out all of the land owners along Gamma Road have signed a petition that endorse the abandonment of the road which is consistent with the new county road standards. He said rarely does the Commission get a chance to vote on something as significant as the vote today. Also pointed out was there are several ways in which a person can choose to subdivide their property; subdivision review, small subdivision or they can subdivide through a procedure known as family transfers, which is often used and sometimes abused by developers. Those that abuse the family transfer procedures are not fair to the developers who play by the rules; more importantly they also put at risk the potential of more regulations for those that legitimately want to sell a portion of their farm to their children. It was pointed out the creation of the entire subdivision across the river from Craig and Susan's property was done through family transfers; over 20 lots which even included a so called agricultural exemption which was granted by this Commission overriding the rejection of the 509 Review Committee. Esch stated you don't get a property right out of a property wrong and this is the time to vote for this; although there may be a desire to put off the decision to some other agency at some other time. A choice of loop holes shouldn't be allowed by the Commission to market a 20 lot subdivision that was not created to county standards. He spoke about the overwhelming support from others who sent letters and e-mails petitioning the Commission to approve the abandonment of the road. Esch stated your job is to protect the river, not wreck the river; don't confuse a property right with a property wrong.

Craig Drynan, 140 Gamma Road said he has lived on a river for 45 of the 60 years of his life and as a child spent his summers like Huck Finn and Tom Sawyer building rafts, camping, fishing and floating with his best friends. Drynan stated he has kayaked the Flathead River over 600 times and wants to protect the wild and scenic river corridor for everyone's grandchildren's children in the same spirit that Montana Senator Mike Mansfield envisioned in 1968 with the Wild and Scenic Rivers Act. He spoke about the proposed bridge being on the most beautiful section of the river. He said wild and scenic does not include building private gated bridges; the people of Hungry Horse and Wagsmith Villa do not want a bridge across the Flathead River in this location. The views and sanctity of the community need to be protected and not ruined by the whims of a developer. He noted if a bridge would ever be built on that section of the river it should be built next to the rail road trestle in Coram and open to the public where it would not obstruct views and bring down property values. He stated when the developers purchased the property they knew the access which was the main reason it was so cheap; if they wanted easy access they should have purchased the field on the river by the airport. Drynan stated he is not against development and bridges and is in favor of progress and zoning. Drynan explained the few lots sold in the beginning were to friends and relatives and after being listed on their website and running ads in airline magazines and airport kiosks, I don't believe they have sold any lots in the last three to four years. He stated it is ridiculous that because of their poor choices in the location of this non-subdivision that we the public are suppose to sacrifice our own privacy, views and land values to save them from themselves. Drynan then listed the following reasons for his justification of the discontinuance of Gamma Road.

- The residences of part of Wagsmith Villa Subdivision do not want our quiet dead-end street to become a major arterial road. This street was never designed to be the approach for a bridge as Sands Surveying will try to convince you. Gamma Road was constructed for access to a rock mining operation in the 1940's to help supply river rock and gravel for the construction of Hungry Horse Dam. The foundation for the dredge line and bucket are still on their lower property. The road was also constructed for the original well that supplies water for all of Hungry Horse. Sands Surveying must be well aware of these facts as they were the surveyor of record when they purchased the property from the Willow and Quist families. The original road was abandoned by the Mundell's and Willow's and a new easement and driveway was agreed upon. Mundell's built a garage on the original road and I believe Sands Surveying also did the survey for this parcel. The Willow's property was purchased first and a few years later the Mundell's property was purchased which included the main house, garage and cabin.
- The end of Gamma Road is covered with grass, bushes and trees and the county snow plows push the snow into this area and it acts as a filter for the road runoff in the spring. If there is a gated bridge he questioned where you would pile the snow.
- Where will the snow from the bridge be plowed? Will it fall 60 feet to the frozen river below? Will the magnesium chloride, oil and grime pollute the river?
- During heavy spring rains where is the road runoff going to drain since the vegetation filters will be gone.
- The trees used for fishing perches for eagles and ospreys will be gone.
- The bridge would be an attractive nuisance for kids and young adults to jump from. This would be a liability for the county; add 60 feet and alcohol and you have a cocktail for major injury or death.
- The thin asphalt layer of Gamma Road is not built for heavy traffic or heavy logging trucks.
- There is no review for the final bridge design.
- Besides esthetics we the residence are concerned about the harmonics of the bridge. Will it sing during the daily 20 to 30 mile an hour winds or will it merely hum? The bridge will impact the views and property values up and down our side of the river and decrease the values of every property owner on Gamma and Beta Roads.
- There are no sidewalks to protect children and pedestrians from higher traffic flows.
- The legal subdivision of Wagsmith Villa was never intended to include the opposite shore of the river.
- The last and most important reason for abandoning Gamma Road is because of the dangerous entrance to and from Hwy 2 to Gamma Road which has had several accidents in the past few years. The 92 acres of Forest Service land proposed for development on Colorado Boulevard makes this intersection more of a liability to the county and state.

TUESDAY, AUGUST 31, 2010
(Continued)

Susan Drynan, 140 Gamma Road said she believes wholeheartedly with Craig and Mr. Esch's reasons for abandoning the road. She stated kids and floaters will climb the cliffs to lower abutments to jump from the structure and there will be no stopping them from that. A death has already occurred at West Glacier Bridge which is only 20 feet high. Drynan said this section of the Middle Fork of the Flathead is designated as recreational by the Wild and Scenic Rivers Act and as such the US Forest Service by their own admission has no jurisdiction over private lands bordering this section. She explained according to the act planned owners along this corridor are stewards of the river, thus in charge of preserving the character of the river. It was pointed out this guideline is also reiterated in the Flathead County Growth Policy; we are trying to be good stewards. She stated as you are all aware there is much more at stake here than just the discontinuance of a few feet of unused roadway. Drynan said our lives are directly affected by your decision today which will impact the lives of everyone that lives on Gamma Road and every man, woman and child that uses the river for generations. Their river experience will be as wild and natural as it is today with the sounds of the water babbling over the rocks, the eagles cry and the beauty of nature as it was intended, or there will be traffic noise long before they turn the corner at devil's elbow.

Erica Wirtala, Sands Surveying said you have heard a lot of extraneous things already, but I will direct my comments to the subject of the road abandonment itself. She presented to the Commissions the original platting of Wagsmith Villa Subdivision which states the streets within the subdivision have been dedicated to the public forever. The plat presented shows the right-of-way of Gamma Road going right down to the river. MCA 7-14-2615 was presented which states:

7-14-2615. Abandonment or vacation of county roads.

- (1) All county roads once established must continue to be county roads until abandoned or vacated by:
 - (a) operation of law;
 - (b) judgment of a court of competent jurisdiction; or
 - (c) the order of the board.
- (2) An order to abandon a county road is not valid unless preceded by notice and public hearing.
- (3) The board may not abandon a county road or right-of-way used to provide existing legal access to public land or waters, including access for public recreational use as defined in [23-2-301](#) and as permitted in [23-2-302](#), unless another public road or right-of-way provides substantially the same access.
- (4) The board may not abandon a county road or right-of-way used to access private land if the access benefits two or more landowners unless all of the landowners agree to the abandonment.

Erica Wirtala reviewed 7-14-2615 (3) & (4) and stated it would be difficult to move forward with the land abandonment of the county road. She said several items were brought to their attention which she continued I find a bit off topic. Wirtala said she spoke with Jimmy DeHerrera in April and a letter was issued from him that said the area is out of his jurisdiction. She stated if anything were to proceed on the county road right-of-way it is not of the Forest Services concern at that point. She pointed out additional work has been done in the general area which included floodplain work, work with the Conservation District and other public agencies. Wirtala then asked that consideration be made in regards to the established state law on the regulations for abandonment of public roads in a case where they access public waters.

Loretta Byrd a resident in Martin City spoke in favor of abandoning Gamma Road and stated we should not benefit a few at the expense of many.

Dave Hadden, 545 Holt Drive stated he supports Mr. Esch's statements fully in terms of the arguments for the abandonment. He said the representative from Sands Surveying said there was an easement to the property across the river. Hadden stated I don't think that reflects the fact that he feels the existing easement goes to the river. He noted the Viewers Report read by Chairman Brenneman would strike a good compromise for retaining existing public access and protecting the river; obviously it is not a full abandonment and would meet the criteria of maintaining an existing public access.

Vicki Byrd-Rinke said she and her husband definitely support the road abandonment especially during these times of budget crisis's for the taxpayers as well as the government. She stated it seems reasonable the abandonment issue would be taken seriously to save taxes.

Craig Schaffer stated he grew up in Wagsmith Villa and currently is a property owner there. He explained he is very aware of the historical aspect of the area as he helped sandbag trying to save the pump house during the flood of 1964. He said the first memories he has of fishing as a child were with his grandfather there and the same is true for his son as well. He added as long as there is continued public access he is in favor of the abandonment. Schaffer presented pictures of the canyon area taken in 1985 and explained he has concerns with additional traffic.

Darlene Wagner stated she has a home on the river directly across from the development and one of the issues is the sound; even without a bridge there it echoes. She spoke about watching the eagles and stated where the proposed bridge is to be built is where the eagles fish. Wagner explained there is Indian significance in the area as well with a historical marker with the inscription on it in regards to the Blackfeet Indians. She stated she is totally against having a bridge built there and supports the abandonment.

James Grant the owner next to the proposed bridge questioned how a bridge could be built there without blocking access to the piece of ground.

No one else rising to speak, Chairman Brenneman closed the public hearing.

Chairman Brenneman said the choices we have is to take the abandonment under advisement, approve the abandonment or deny it.

Commissioner Dupont asked for clarification of MCA 7-14-2616 and questioned whether the property owners that obtain the property from a road abandonment (after the property is split) if there is a possibility it could be sold at a later date.

Peter Steele explained when the abandonment is approved the land owner on one side of the road gets half the property and the property owner on the other side receives the other half; they would own the land and the easement will remain.

**TUESDAY, AUGUST 31, 2010
(Continued)**

Chairman Brenneman clarified that the portion could not be sold unless it went through a subdivision review; the lot exists as it currently exists and they could have full use of the property subject to the pedestrian right-of-way if they go with the recommendation.

Commissioner Dupont asked what the procedure for a bridge would be if the road wasn't abandoned and if the Commission would have any say in the decision then.

Peter Steele said for the bridge to attach to the county road they would have to get an approach permit from the Road Department. Steele asked Public Works Director Dave Prunty what the requirements to get a permit would be at that point.

Dave Prunty noted there is a \$100 fee and requirements would need to be met. He explained they normally attach to roads and has not done one yet that attaches to a bridge.

Peter Steele said normally on an approach permit the Road Department looks at the sight distance to make sure it is safe to exit on and off of.

Chairman Brenneman commented on concerns raised by Ms. Wirtala and said it is pretty apparent to him that a Mr. and Mrs. Smith and a Mr. and Mrs. Wagner in 1946 apparently owned 91 acres which they petitioned the County Commissioners to subdivide and plat out the land as described on the certificate. Brenneman stated it seems there is nothing in the document nor has he found anything that would indicate they had any intention of developing the land across the river; nor is it likely, and if they had I presume there would have been a right-of-way on the other side of the river as well. He then asked if there was any documentation.

Erica Wirtala said they were just subdividing their own property.

Chairman Brenneman said from my understanding from the legal argument that a piece of property subdivided by one individual implies a public's access to another piece of property across a river doesn't hold up. He then clarified the recommendation is to abandon this portion of road with a pedestrian right-of-way. He asked Deputy County Attorney Peter Steele if the right-of-way needed to be better defined. That a pedestrian right-of-way could presumably be 60 feet wide.

Chairman Brenneman made a **motion** to approve Road Abandonment #483 subject to the conditions on the Viewers Report with the existing ROW and existing pedestrian footpath not to exceed six foot in width. Commissioner Lauman **seconded** the motion.

Commissioner Dupont commented that he was approached sometime ago on a proposal for a bridge and was under the impression it was a public bridge that would affect the public. Dupont said I don't like the idea of a private bridge to begin with as it would create issues in the law enforcement arena in and by itself; trespassing and all kind of issues. He stated he would much prefer, if there is going to be a bridge somewhere, it should be a public bridge that has full access with standard sized roadways and bridge construction.

Commissioner Lauman stated he supports the motion and feels it is the proper and right thing to do and will serve the best purpose for those in the community.

Chairman Brenneman clarified the motion has been made and seconded that the road be abandoned with the existing pedestrian footpath not to be wider than six foot.

Aye - Brenneman, Lauman and Dupont. Motion carried unanimously.

AUTHORIZATION TO PUBLISH NOTICE OF PASSAGE OF RESOLUTION OF INTENT AND ADOPTION OF RESOLUTION OF INTENT: GROWTH POLICY AMENDMENT/ COUNTY TRAILS PLAN

[10:21:37 AM](#)

Members present:

Chairman Joseph D. Brenneman
Commissioner Dale W. Lauman
Commissioner James R. Dupont

Others present:

Assistant Mike Pence, Deputy County Attorney Peter Steele, Interim Planning & Zoning Director B J Grieve,
Planner Alex Hogle, Planning & Zoning Office Administrator Mary Fisher, Clerk Kile

Commissioner Dupont made a **motion** to adopt Resolution 2015N and authorized publication of the Notice of Passage of Resolution of Intent. Commissioner Lauman **seconded** the motion. **Aye** - Brenneman, Lauman and Dupont. Motion carried unanimously.

RESOLUTION NO. 2015N

WHEREAS, the Board of Commissioners of Flathead County, Montana, adopted the Flathead County Growth Policy on March 19, 2007;

WHEREAS, the Growth Policy envisioned the creation of a County Bicycle Transportation Advisory Committee to plan a coordinated bicycle trail and path network, prioritize easement acquisition, set construction standards, and determine funding mechanisms;

WHEREAS, the Flathead County Parks Board created a sub-committee, known as PATHS, in February 2008 for the purpose of developing a county trails plan;

WHEREAS, in accordance with Chapters 4 and 6 of the Flathead County Growth Policy, the PATHS sub-committee prepared the Flathead County Trails Plan;

WHEREAS, the Flathead County Parks and Recreation Board approved the Flathead County Trails Plan;

WHEREAS, the Flathead County Planning Board held a public hearing on July 21, 2010, considered the public comment that was received and recommended that the Flathead County Trails Plan be adopted as an element of the Flathead County Growth Policy; and

WHEREAS, the Board of Commissioners has determined that the Flathead County Trails Plan proposed by the Flathead County Planning Board, should be formally considered for adoption as an element of the Flathead County Growth Policy.

NOW, THEREFORE, IT IS HEREBY RESOLVED, by the Board of Commissioners of Flathead County, pursuant to Section 76-1-604, M.C.A., that it intends to adopt the Flathead County Trails Plan proposed by the Flathead County Planning Board, as an element of the Flathead County Growth Policy.

BE IT FURTHER RESOLVED that the Board of Commissioners will give the public an opportunity to comment in writing on the proposed amendment to the Flathead County Growth Policy, by the adoption of Flathead County Trails Plan proposed by the Flathead County Planning Board as an element of the Growth Policy, and will consider any written comments which are received in the Board's Office prior to October 5, 2010. The Board will consider whether to make any further revisions and whether to pass a final resolution adopting the proposed Flathead County Trails Plan proposed by the Flathead County Planning Board as an element of the Growth Policy after that date.

NOTICE OF PASSAGE OF RESOLUTION OF INTENTION
FLATHEAD COUNTY GROWTH POLICY

The Board of Commissioners of Flathead County, Montana, hereby gives notice, that it passed a Resolution of Intention (Resolution No. 2015N) on August 31, 2010, to consider the adoption of the Flathead County Trails Plan.

The proposed Flathead County Trails Plan, prepared by the Flathead County Parks Board and a sub-committee of the Parks Board known as PATHS and proposed by the Flathead County Planning Board, would amend the Flathead County Growth Policy. Such a plan was envisioned as an important element of the Growth Policy. The Flathead County Trails Plan is available for public inspection at the Office of the Clerk and Recorder, 800 South Main, Kalispell, Montana, at the Flathead County Planning and Zoning Office, 1035 1st Avenue West, Kalispell, Montana, and online at http://flathead.mt.gov/parks_rec/master_plan.php/

The Board of Commissioners will give the public an opportunity to comment in writing on the proposed Flathead County Trails Plan, which would be an amendment to the Flathead County Growth Policy, and will consider any written comments which are received in the Board's Office prior to October 5, 2010. The Board will consider whether to pass a final resolution adopting the proposed amendment after that date.

DATED this 31st day of August, 2010.
