The Board of County Commissioners met in continued session at 8:00 o'clock A.M. Chairman Dupont, Commissioners Lauman and Holmquist, and Clerk Robinson were present.

Chairman Dupont opened public comment on matters within the Commissions' Jurisdiction.

Valerie Parsons stated she has lived in Flathead County since 1977 and has been a member of Rails to Trails for the past 17 years. She explained she has concerns regarding the proposed CTEP Administrative Policy document on the agenda to be discussed today. Parsons stated she is thankful the county is attempting to make the application process clearer and more organized, yet has concerns regarding maintenance trust fund requirements for trails currently in place. She explained what is being proposed regarding raising additional funds for maintenance will make her job as a citizen raising funds for a trail much harder and discouraging. She asked that Flathead County inquire as to how other counties maintain their trails.

Richard Siderius, President of Rails to Trails explained with their recreational trails program they apply for maintenance money, which they can use to seal coat and patch trails. He explained the way they were able to build 22 miles of trails had to do a lot with a DOT requirement of putting in trails when new roads are built.

No one else rising to speak, Chairman Dupont closed the public comment period.

Grieve reviewed the following proposed document pertaining to CTEP Administrative Policies for commissioner consideration.

**FLATHEAD COUNTY
COMMUNITY TRANSPORTATION ENHANCEMENT PROGRAM (CTEP)
ADMINISTRATIVE POLICIES**

INTRODUCTION & BACKGROUND

The Program:

The Community Transportation Enhancement Program (CTEP) is a federally funded reimbursement program administered by the Montana Department of Transportation (MDT) that provides annual funding to local communities to develop pedestrian and bicycle trails and other transportation-related enhancements. CTEP funding currently covers 86.58% of the cost of approved projects and local communities are responsible for the remaining 13.42%, an amount referred to as the "local match."

CTEP funded projects are planned, applied for, and overseen directly by the local tribal, municipal or county government. Typically, local matching funds are budgeted and provided by the municipal or county government. Historically, Flathead County has not budgeted for the local match, thus private organizations have initiated trail projects and raised funds to provide the required local match portion. The Flathead County Planning and Zoning Office (FCPZ) has provided support to private organizations by preparing, submitting and administering CTEP projects and overseeing construction to ensure compliance with CTEP program requirements. A typical CTEP project will follow an approximately 36-month lifespan from the initial application by the private organization through project completion.

The Pros:

The Flathead County model for CTEP projects has created a variety of pedestrian and bicycle trails throughout the county that provide safe routes to schools, serve active recreation interests and promote transportation alternatives. Private organizations that have worked hard to develop specific trails have a sense of ownership and are therefore more likely to help maintain the trail and organize promotional events and subsequent fundraisers. Taxpayer costs are lessened because local matching funds are privately raised and only the administration of the program (staff time) is funded by local tax dollars.

The Problems:

The Flathead County model for CTEP projects has led to some problems as a result of unclear policies and guidelines. Projects are planned and applications are accepted for trails wherever a private organization has the interest and means to have a trail built. This method of trail programming has led to 1-3 mile bits of trails spread throughout the county, with less than optimum coordination to connect existing trails or guide new trail construction towards areas with maximum public benefit.

Initial planning and application materials generated by volunteer private organizations without professional oversight may lack sufficiently accurate project details and cost estimates. Once a trail project is approved, Flathead County government is recognized as the applicant and project owner by MDT but has no funding budgeted for local matching funds. Inadequate original cost estimates and shortfalls in private organization fundraising can lead to project cost overruns and frustration for all involved. Furthermore, once CTEP projects are complete, the ongoing maintenance requirements and associated expense can be burdensome without an additional revenue stream to match the additional expense.

POLICIES

This policy document is intended to complement the Flathead County Trails Plan and provide guidelines specific to privately initiated and sponsored CTEP trail projects administered by FCPZ. Non-CTEP trails addressed in the plan using other public, private, or combinations of funds are not specifically subject to these policies.

Initial Project Proposals

- FCPZ will create a CTEP funding cycle with an annual deadline for initial project proposals from private organizations and estimated major checkpoints, deliverables and deadlines over a 36-month project lifespan. This document will be a guideline to improve understanding of the CTEP process by all participating entities and to determine how projects are progressing and will not be construed as binding or regulatory on any participating entity.
- Initial project proposals prepared by a private organization must contain:

MONDAY, SEPTEMBER 26, 2011
(Continued)

1. Cover letter addressing in detail the criteria found in Appendix C of the Flathead County Trails Plan (Trails Plan) (available on the FCPZ website), along with supporting documents;
 2. A preliminary engineering report containing an estimate of the total cost of the proposed project. The cost of the report is not reimbursable with CTEP funds;
 3. Evidence that easements exist for the proposed trail;
 4. An acknowledgement of the group's requirement to raise 50% of the local match amount (local match is 13.42% of total project cost, as determined at this point in preliminary engineering report) prior to the Flathead County Board of Commissioners (Commission) signing the Project Specific Agreement (PSA) with MDT, an additional 25% of the local match amount prior to signing a contract with a consulting engineer and the final 25% of the local match amount prior to signing a contract with a construction contractor;
 5. A trail maintenance plan, to include a signed agreement to raise funds for a maintenance trust fund, a plan to continue fundraising for this account, and a plan for routine maintenance of the proposed trail. Criteria for this plan are found in Chapter 3 of the Trails Plan.
- If no project proposals are received prior to the initial project proposal deadline, Flathead County's unencumbered allocation may be accrued and applied to future annual funding cycles or redistributed to one of the other local entities within Flathead County, at the County's discretion.

Project Selection

- FCPZ staff will provide a review of initial project proposals for content and adequacy prior to forwarding to the Flathead County Parks Board (Parks Board).
- The Parks Board will evaluate CTEP project proposals and make a recommendation to the Commission, per Appendix C of the Trails Plan.
- The Commission will make the final selection of initial project proposals that will proceed to preparation by FCPZ staff of the formal MDT CTEP project application.
- If a project proposal does not meet the evaluation criteria found in Appendix C of the Trails Plan, or if funding, maintenance commitments, and/or easement provisions are not adequate, the project will not be selected.
- If a project proposal is not selected by the Commission, private organizations may re-apply for future funding cycles.
- If no project proposals are selected, or if a portion of annual CTEP funding remains unencumbered, Flathead County's unencumbered allocation may be accrued and applied to future annual funding cycles or redistributed to one of the other local entities within Flathead County, at the County's discretion.

Project Administration

- FCPZ will prepare application materials for MDT applications for those projects selected by the Commission.
- All local match for CTEP project costs will be the responsibility of the private organization sponsoring the project.
- The private organization sponsoring the project will be responsible for creating a project maintenance trust fund for long-term maintenance. The trust fund must be "seeded" by the private organization with an amount equal to or exceeding 50% of the local match amount (as determined in the preliminary engineering report) prior to the Commission signing the PSA.
- Prior to signing the PSA, the Commission will require from the private organization:
 1. Evidence that 50% of the local match exists in an account accessible by Flathead County.
 2. Evidence that a separate, additional project maintenance trust account unique to the project has been established with the Flathead County Treasurer's Office containing 50% or more of the local match amount, as determined in the preliminary engineering report.
 3. Acknowledgement that the scope of the project will be reduced if necessary to keep the project within the approved budget and avoid cost overruns.
- After the PSA is signed, Flathead County will match the amount in the project maintenance trust account, up to 50% of the local match amount as determined in the preliminary engineering report.
- Proceeds from the separate project maintenance trust account shall be directed to the Flathead County Weed, Parks and Building Maintenance Department and that department shall use those proceeds for short and long term maintenance of the project.
- Selection of an engineering firm to perform design engineering and construction engineering will be done by the Commission, after review of candidates by professional county staff, to include the Public Works Director, the Weed, Parks and Building Maintenance Director, the Planning Director and a Deputy County Attorney.

Project Construction

- Construction bid documents prepared by the project engineer shall limit the scope of the project to fit within the budget approved by the Commission when the project specific agreement was signed.
- Change orders needed to avoid significant and immediate threats to public health and safety (such as ruptured water lines, power supplies, etc.) may be approved by the CTEP Administrator/Planning Director or his/her designee if time does not permit review and approval by the Commission. Change orders requested as a result of unanticipated design complications, which have multiple potential solutions, shall be reviewed and approved by the Commission. MDT shall also be consulted on all change orders.
- Change orders shall be approved prior to work being performed and costs being incurred.

Redistribution of CTEP Funding

- When Flathead County chooses to redistribute CTEP funding to other local entities, those entities will be notified of the redistribution and requests will be collected. Other local entities to which Flathead County's CTEP funding could be redistributed are the Confederated Salish and Kootenai Tribes and the cities of Columbia Falls, Kalispell and Whitefish.
- Requests for redistribution from other local entities must contain a description of projects for which the allocation will be used, and requests will be reviewed by the Parks Board, using the criteria found in Appendix C of the Trails Plan.
- Priority will be given to projects that meet the criteria as well as provide the most benefits to both residents of the local entity as well as Flathead County.
- After considering the recommendation of the Parks Board, the Flathead County Commissioners shall choose the local entity and project to which CTEP funding is redistributed.

General discussion was held relative to current trail maintenance needs. It was the consensus of the board to continue the meeting next week in order to clarify concerns and discuss the proposal further.

Commissioner Pamela J. Holmquist

Members absent:

Commissioner Dale W. Lauman

Others present:

Assistant Mike Pence, Deputy County Attorney Tara Fugina, Planning & Zoning Director B. J. Grieve, Planner Alex Hogle, Linda Smith, Toby McIntosh, Clerk Kile

Hogle entered into record Final Plat FFP 11-03; an application submitted by Linda Smith for a subdivision creating four residential lots located on the south side of Berne Road near the intersection with Jensen Road. Preliminary Plat approval was granted on July 10, 2007 subject to 16 conditions. Final plat came before the commission on July 12, 2011 at which time it was considered and tabled until final plans for the RSID design were approved and completed.

General discussion was held relative to the RSID, which has not gone out to bid yet. It was noted construction could not be completed this fall so the project will be bid in the spring.

Fugina explained if the RSID bids come in over the estimated cost, the RSID process would have to start over.

Commissioner Holmquist stated that is where they were during the July meeting and we still are not sure. She noted the county is paying a large portion of this project, yet we still don't know what the final cost is going to be.

Hogle reviewed condition #13 that states: The subdivider shall bring 200 feet of Berne Road, which abuts the proposed lots to paved county standards. A letter from an engineer certifying the road shall be provided for final plat. Should an RSID be approved, and final plans can be provided at the time of final plat, the applicant shall be relieved of this paving requirement.

Prunty explained he has reviewed the RSID plans with the engineer, which meets the requirement. He noted a conservative estimate for the RSID was given when presented to the property owners.

Pence noted the county is covering the majority of the expense and they feel the amount proposed is liberal enough to cover the cost.

General discussion was held relative to the applicant still being eligible for an extension.

Grieve explained once conditions have been met the applicant can file for final plat.

Commissioner Holmquist made a **motion** to approve final plat for Subdivision No. 274. Chairman Dupont **seconded** the motion. **Aye** - Dupont and Holmquist. Motion carried by quorum.

Commissioner Lauman **seconded** the motion. **Aye** - Dupont, Lauman and Holmquist. Motion carried unanimously.

**CALL FOR BIDS
ROAD DEPARTMENT**

Notice is hereby given that the Board of County Commissioners of Flathead County, Montana, will receive bids on one rubber tire hydraulic excavator for purchase. Bidder may submit bids on several machines. Individual price for each unit must be stated.

County may choose any unit in each bid package.

The specifications for said rubber tire hydraulic excavator may be obtained at the County Clerk and Records Office, 800 South Main, Kalispell, MT 59901.

Bidder shall submit a bid as per the specifications.

Each bidder must deposit with his bid, a bid security in the amount of ten percent (10%) of his bid to secure the bidder's express covenant that if the bidder is awarded the contract, the bidder will, within ten (10) days, enter into a formal contract for the purchase and sale of said unit. Bid security shall be payable to Flathead County and shall be in the form of lawful money of the United States; a cashier's check, certified check, bank money- order or bank draft issued by a Montana bank, or a bid bond executed by a surety corporation authorized to do business in Montana.

Each bidder shall include with the bid, the form of contract to be signed. Bidder must be able to deliver the machine within 30 days of bid award letter date. Flathead County reserves the right to negotiate the terms of said proposed contract (excluding prices contained therein). In awarding the bid, the age, mileage, condition of the vehicle and tires, and the terms of any warranty the bidder is willing to offer, as well as the bid price, will be taken into account in order that the department can select the best overall vehicle from the bids submitted.

All sealed bids, **plainly marked as such**, must be in the hands of the County Clerk and Recorder, 800 South Main, Kalispell, MT 59901, on or before October 20, 2011 at 9:30 a.m. Bids will be opened and read immediately thereafter in the Commissioners' Chambers at 800 South Main, West Annex of the Courthouse.

The Board of County Commissioners reserves the right to reject any and all bids and to accept the bid deemed to be in the best interest of Flathead County.

The award of a bid will be made solely by the issuance of a letter of award to the successful bidder by the Office of the Flathead County Clerk and Recorder.

Dated this 28th day of September, 2011.
