New Business: Clean the Fork will be May 8th. We will meet at the fire hall at 8:30. There was a discussion revolving around the camping issue at the Blankenship Bridge. Do we need to form a resolution so that our firefighters are not put at risk when dealing with beligerent campers, who are chemically impaired, when they investigate a fire at the gravel bar. It was decided to table the resolution and give Terry the opportunity to create a S.O.G. whereby we respond to the call but stage at the bridge and contact the Forest Service and and they can have contact with the campers. There were also some questions regarding dispatch protocol and Terry will get further information.

Meeting was adjourned.
