STAFFING LEVEL WORKSHOP - DISCUSSION

Four staffing options were presented and discussed as well as what might be the plan of action going forward due to the levy not passing. A plan of education of the voters was also discussed and what might be the best way to proceed. After much discussion it was decided to have another planning workshop on 9-27-2018.

Firefighter Pine presented a Volunteer Incentive Program that was used in the Department he worked for in New Jersey. This was a quick overview and further research will be required before a decision will be made.

ADJORNMENT: At 6:00 PM
